

RUCKUS® Network Health Check Service for K-12 Schools

Offered by RUCKUS Professional Services

BENEFITS

- **Quick & Remote Assessment:** No on-site visit required; get a network health check from anywhere.
- **Optimized Digital Learning:** Enable reliable connectivity for classrooms, remote learning, and student applications.
- **Security & Compliance Assurance:** Identify vulnerabilities to protect student data and maintain compliance with K-12 security policies.
- **Actionable Recommendations:** Receive a clear report on what's working, what needs attention, and what should be prioritized.
- **Future-Ready & Scalable:** Prepare your network to support growing device density, smart classroom technology, and evolving learning environments.

OPTIMIZE YOUR K-12 NETWORK FOR DIGITAL LEARNING

Today's K-12 schools require a high-performing, secure, and scalable network to support digital learning, IoT devices, and administrative operations. But is your network optimized to meet these demands?

The RUCKUS Network Health Check is a remote, high-level assessment designed to identify misconfigurations, security risks, and performance inefficiencies—all without the need for an on-site visit.

Why Choose the RUCKUS Network Health Check?

- **Remote and Fast:** Gain insights into your network's health with zero disruption to classrooms.
- **Best Practice Alignment:** Verify that your network configurations follow industry standards and K-12 security policies.
- **Actionable Findings:** Receive a concise, easy-to-understand report categorizing findings as Compliant, Requires Attention, or Critical Issue.
- **Scalability & Security:** Enable your network to support high-density student device usage, interactive learning applications, and future technology growth.

What's Included in the Health Check?

- **Configuration & Performance Review**
 - Evaluation of Wi-Fi® and LAN configurations for alignment with best practices in education environments.
 - Analysis of AP firmware, controller settings, and VLAN configurations.
 - Identification of potential bottlenecks affecting student and staff connectivity.
- **Security & Risk Assessment**
 - Review of authentication, encryption, and student data protection measures.
 - Detection of outdated firmware or security vulnerabilities in RUCKUS devices.
 - Recommendations to enhance security and maintain compliance with K-12 cybersecurity policies.
- **High-Level Network Health Report**
 - Summary of findings categorized as Compliant, Requires Attention, or Critical Issue.
 - Clear recommendations for corrective actions and network optimizations.
 - Guidance on when a full RUCKUS Network Audit Service may be needed for deeper analysis.

Need a More Comprehensive Analysis?

The RUCKUS Network Health Check is a great starting point, but for a detailed, on-site evaluation, including heatmaps, LAN optimizations, and in-depth troubleshooting, consider the RUCKUS Network Audit Service for K-12 Schools.

MAXIMIZING INVESTMENTS IN K-12 NETWORKS

To help optimize technology investments, RUCKUS and its partners provide complete solutions that include education, support, and services tailored to the needs of the K-12 sector. Contact your RUCKUS sales partner to learn more about RUCKUS Network Audit Service for K-12s.
